**Course Overview**

News headlines about media effects tend toward the extreme. Are smartphones [destroying a generation](#)? Does screen time [ravage children's brains](#)? Are video games [digital heroin](#)? Does the devil [live in our phones](#)? To the untrained eye, it might seem difficult to separate fact from clickbait.

This class begins with an introduction to the basics of media psychology, including the scientific methods used to test claims about the effects of mass media on individuals. We then consider the psychological mechanisms through which media effects are thought to occur before examining the contexts in which these effects are stronger, weaker, or non-existent. Ongoing class assignments will push students to consider how the realities of media effects can be communicated to mass audiences in ways that are practical, accurate, and devoid of fearmongering.

At the conclusion of this course, students will be able to...

- 1. ...classify “media psychology” as a branch of social science.**
  - 1.1. Identify key theories and research methods used by media psychologists.
  - 1.2. Identify appropriate methods for various research scenarios.
  - 1.3. Explain how key theories can be used to understand media effects in everyday life.
  - 1.4. Use theories to predict the outcomes of research studies.
  
- 2. ...evaluate the quality of published research on media effects.**
  - 2.1. Recognize the limitations of survey and experimental research methods.
  - 2.2. Analyze the limitations of published research on media effects.
  - 2.3. Compare the relative strength of evidence produced across studies.
  
- 3. ...evaluate how media effects research is communicated to the public.**
  - 3.1. Explain how “moral panics” influence news coverage of media effects research.
  - 3.2. Illustrate the disconnect between research results and news coverage of those results.
  - 3.3. Distinguish between high- and low-quality news coverage of media effects research.
  
- 4. ...develop evidence-based recommendations for media use in everyday life.**
  - 4.1. Identify and gather published research on a specific media effects topic.
  - 4.2. Summarize key findings of published research on a specific media effects topic.
  - 4.3. Translate research findings for a mass audience.

## Textbook/Readings

There is no textbook for this course. All readings are posted on Carmen (<https://carmen.osu.edu>).

## Grade Distribution

This class has 100 possible points. Points are distributed as follows:

“5M” Activities (x6)	6 points
Checkpoints (x7)	14 points
Research Synthesis Assignments (x3)	30 points
Online Quizzes (x4)	10 points
Online Exams (x2)	40 points

## Letter Grade Distribution

You must attempt each assignment in order to receive a grade. Your final grade will be determined based on the combined score of all assignments. The grading distribution is as follows:

$\geq 92.5$	A	72.5 – 76.4	C
89.5 – 92.4	A-	69.5 – 72.4	C-
86.5 – 89.4	B+	66.5 – 69.4	D+
82.5 – 86.4	B	59.5 – 66.4	D
79.5 – 82.4	B-	$\leq 59.4$	F
76.5 – 79.4	C+		

## Technology

Each weekly module features video lectures on Carmen. Lectures are posted in two formats: (1) PowerPoint files with audio recordings, and (2) online YouTube playlists. The content included in each version is identical, so you only need to access one version (whichever you prefer). The YouTube playlists allow for closed captioning. Please make certain you have a strong internet connection and relevant audio equipment (e.g., headphones). It is not feasible for me or your TAs to help you with technical problems. University Tech support can help you (614-688-HELP) with technical problems.

## Overview of Assignments

Each weekly module contains readings, lectures, and assignments. All work is due by 11:59 pm on Sunday (i.e., the **END** of each week).

**“5M” Activities:** The main concepts introduced this semester are summarized as the **5M’s**: Moral panics, Research Methods, Mediation, Moderation, and Meta-analysis. When these concepts are introduced, you will complete a worksheet that asks you to examine how that concept manifests in published research papers and/or news articles. There are six activities in total, and they are graded out of one point for thoroughness and completion (1 = satisfactory, .5 = needs improvement, 0 = incomplete).

**Checkpoints:** Periodic “checkpoints” serve to assess your understanding of key course concepts. Each checkpoint consists of open-ended questions on Carmen. You will receive instructor feedback, which will help as you prepare your research synthesis (see below). There are seven checkpoints in total, and they are graded out of two points for thoroughness and completion.

**Research Synthesis Assignments:** The main course project asks you to research a specific media effects topic of your choice. This project culminates in a 1-page paper (single-spaced) that summarizes existing research on your topic and provides evidence-based recommendations about how people should approach media use in everyday life. Prior to writing this short paper, there are two preliminary assignments that ask you to gather, evaluate, and synthesize research on your chosen topic. These assignments are each graded out of 10 points using a combination of completion, accuracy, and effort. Detailed rubrics are provided for each assignment.

**Online Quizzes:** Quizzes occur every 2-3 weeks. Each quiz is worth 2.5 points and consists of 10 multiple-choice questions. You have two opportunities to complete each quiz, and these attempts have no time limit. You should complete the first attempt without referencing your notes. After submitting the quiz, you can see which questions you answered incorrectly. You should then use your notes to figure out why you got those questions wrong. You can then correct your answers and resubmit. Only your highest score will be counted. Research shows that this process of testing yourself, re-learning the material, and correcting your responses is a more effective study technique than simply reviewing your notes because it forces you to recognize and address gaps in your knowledge. As such, these quizzes serve as periodic checks of your knowledge, as well as reviews for exams.

**Online Exams:** There are two online exams that consist of 20 multiple-choice questions and 10 true/false questions. Each exam is worth 20 points. A study guide is provided, and you can use your notes to complete the exams. However, you only have ONE attempt to complete each exam. This attempt is timed (60 minutes).

If you score less than 70% on an exam, you have the opportunity to complete an *Exam Reflection Assignment*. This assignment requires you to reflect on errors that you made and demonstrate mastery of the material that you misunderstood. Satisfactory completion of this reflection will increase your exam grade to 70%.

### **Late Work Policy: Freebies!**

All late assignments receive a zero for that assignment. However, you are allowed two “freebies” over the course of the semester, such that you can turn in an assignment late with **NO PENALTY**. In order to use your freebie, you need to email your TA within one day of the assignment due date (i.e., some time on Monday). Your TA will keep track of how many freebies you have used. Once you use up your two freebies, you will receive a zero on any late assignment—no exceptions.

### **Extra Credit**

Participate in a research study! Conducting scientific research is crucial to the mission and purpose of the School of Communication at The Ohio State University. You can earn 1 point of extra credit for each 1 hour of research participation (up to 3 hours, or 3 points total) that you complete in School of Communication research studies. Be sure to read the detailed instructions on the SONA site. Importantly, missing your research appointment or quickly clicking through surveys and giving researchers fake data will not earn participation credit. You must sign up for studies at: <https://osucomm.sona-systems.com>

### **Mental Health: Please Take Care of Yourself!**

As a student, you might experience a range of issues that can cause barriers to your learning (e.g., strained relationships, increased anxiety, alcohol/drug problems, feeling down, difficulty concentrating and/or lack of motivation). These mental health concerns or stressful events may lead to diminished academic performance or reduce a student's ability to participate in daily activities. The Ohio State University offers services to assist you with addressing these and other concerns you may be experiencing. If you are or someone you know is suffering from any of the aforementioned conditions, you can learn more about the broad range of confidential mental health services available on campus via the Office of Student Life's Counseling and Consultation Service (CCS) by visiting [ccs.osu.edu](http://ccs.osu.edu) or calling 614-292-5766. CCS is located on the 4th Floor of the Younkin Success Center and 10th Floor of Lincoln Tower. You can reach an on-call counselor when CCS is closed at 614-292-5766. If you are thinking of harming yourself or need a safe, non-judgmental place to talk, or if you are worried about someone else and need advice about what to do, 24 hour emergency help is also available through the Suicide Prevention Hotline (Columbus: 614-221-5445 / National: 800-273-8255); or text (4hope to 741741); or at [suicidepreventionlifeline.org](http://suicidepreventionlifeline.org)

### **Title IX**

Title IX makes it clear that violence and harassment based on sex and gender are Civil Rights offenses subject to the same kinds of accountability and the same kinds of support applied to offenses against other protected categories (e.g., race). If you or someone you know has been sexually harassed or assaulted, you may find the appropriate resources at <http://titleix.osu.edu> or by contacting the Ohio State Title IX Coordinator, Kellie Brennan, at [titleix@osu.edu](mailto:titleix@osu.edu)

### **Diversity**

The School of Communication at The Ohio State University embraces and maintains an environment that respects diverse traditions, heritages, experiences, and people. Our commitment to diversity moves beyond mere tolerance to recognizing, understanding, and welcoming the contributions of diverse groups and the value group members possess as individuals. In our School, the faculty, students, and staff are dedicated to building a tradition of diversity with principles of equal opportunity, personal respect, and the intellectual interests of those who comprise diverse cultures.

### **Requesting Accommodations**

The University strives to make all learning experiences as accessible as possible. If you anticipate or experience academic barriers based on your disability (including mental health, chronic or temporary medical conditions), please let me know via email immediately so that we can privately discuss options. You can also register with Student Life Disability Services to establish reasonable accommodations. After registration, you should make arrangements with me as soon as possible to discuss your accommodations so that they may be implemented in a timely fashion. SLDS contact information: [slds@osu.edu](mailto:slds@osu.edu); 614-292-3307; 098 Baker Hall, 113 W. 12th Avenue.

### **Academic Integrity**

All work must be the original work of the student and not turned in to any other course prior to this one. Cheating is unacceptable and will result in a formal report to the School of Communication and the Committee on Academic Misconduct. It is the responsibility of the Committee on Academic Misconduct to investigate or establish procedures for the investigation of all reported cases of student academic misconduct. The term “academic misconduct” includes all forms of student academic misconduct wherever committed; illustrated by, but not limited to, cases of plagiarism and dishonest practices in connection with examinations. Instructors shall report all instances of alleged academic misconduct to the committee (Faculty Rule 3335-5-487). For additional information, see the Code of Student Conduct: <http://studentlife.osu.edu/csc/>

### **Student Academic Services**

Arts and Sciences Advising and Academic Services’ website provides support for student academic success. Information on advising issues such as tutoring, transfer credits, academic standing, and contact information for Arts and Sciences advisors can be obtained through this website. The site is: <http://advising.osu.edu/welcome.shtml>

### **Student Services**

The Student Service Center assists with financial aid matters, tuition and fee payments. Please see their site at: <http://ssc.osu.edu>

### **Copyright Disclaimer**

The materials used in connection with this course may be subject to copyright protection and are only for the use of students officially enrolled in the course for the educational purposes associated with the course. Copyright law must be considered before copying, retaining, or disseminating materials outside of the course.

### **Additional Disclaimer**

This syllabus represents a contract “in the works.” Events that transpire over the semester may require modifications to the course. In the event of a change, I will announce the change and update the syllabus on Carmen. Ultimately it is your responsibility to keep up with any such modifications and to be aware of current policies, deadlines, etc. I reserve the right to modify course policies throughout the semester.

### **University COVID-19 Policies**

All students, faculty and staff are required to comply with and stay up to date on all university safety and health guidance (<https://safeandhealthy.osu.edu>), which includes wearing a face mask in any indoor space and maintaining a safe physical distance at all times. Non-compliance will result in a warning first, and disciplinary actions will be taken for repeated offenses. Students seeking to request COVID-related accommodations may do so through the university’s [request process](#), managed by Student Life Disability Services. If at any point you are too ill to participate in this course due to COVID-19, please contact the instructor as soon as you are able. If at any point the instructor is too ill to teach the course for a period of time, the designated backup for this course will step in. You will be notified via email from the School of Communication.
