HOW THIS ONLINE COURSE WORKS

Mode of delivery: This course will be delivered online asynchronously. There are no required sessions when you must be logged in to Carmen at a scheduled time. Lecture videos will be broken into topic segments that will account for 3 hours of instructor provided content each week. Lectures are located in the weekly modules on Carmen.

Pace of online activities: This course is divided into **weekly modules** that are released one week ahead of time. Students are expected to keep pace with weekly deadlines but may schedule their efforts freely within that time frame.

Credit hours and work expectations: This is a **3-credit-hour course**. According to Ohio State policy (go.osu.edu/credithours), students should expect around 3 hours per week of time spent on direct instruction (instructor content and Carmen activities, for example) in addition to 6 hours of homework (reading and assignment preparation, for example) to receive a grade of (C) average.

Attendance and participation requirements: Because this is an online course, your attendance is based on your online activity and participation. The following is a summary of students' expected participation:

- **Participating in online activities for attendance: AT LEAST ONCE PER WEEK**
You are expected to log in to the course in Carmen every week. (During most weeks you will probably log in many times.) If you have a situation that might cause you to miss an entire week of class, discuss it with me *as soon as possible*.
- **Office hours and live sessions: OPTIONAL**
All live, scheduled events for the course, including my office hours, are optional.
- **Participating in discussion forums: 2+ TIMES PER WEEK**
As part of your participation, each week you can expect to post at least twice as part of our substantive class discussion on the week's topics.

ASSIGNMENTS (8)

Cover Letter and Resume

Students learn written communication skills and research skills to gain an understanding of a company and its opportunities for employment.

Corporate Research Assignment

15% 150 pts.

Apply career development theories and methodologies from Week 4 reading (Walker-Donnelly, Scott, and Cawthorn) observing and analyzing verbal, nonverbal and intercultural communication that can be found on companies online. Also use research skills to investigate potential job opportunities accessing the Occupational Outlook Handbook managed by the U.S. Bureau of Labor Statistics online at <https://www.bls.gov/ooh/home.htm> to be able to ultimately answer the question: *I have a Communication degree – Now what?* Employment areas explored may include but are not limited to media and communication, business, entertainment and sports, management, and sales. The aim is to learn to research workplace communication with stakeholders, different cultural communication observations and technology specific to employment in the communication field.

Each student will pick **two** jobs in communication career fields and research the job summary, job titles, level of education needed, brief description of work environment, pay range and how employment in this job/career is expected to grow. Each student will also pick **one** company and research documents from the company or companies they have chosen and their investor relations annual summary, recent press releases, work environment, the job outlook, pay and similar occupations to understand the breadth and depth of these employment opportunities. It will connect them with professionals, alumni and other groups in their chosen career and allow exploration of employers. Your personal LinkedIn link will be submitted to the assigned Carmen dropbox and an online discussion forum. Within the discussion, students will comment on the accounts of four classmates.

Career Development Plan

15% 150 pts.

This writing assignment is a three-part document – short-term career plan, long-term career plan and back-up career plan. Challenge yourself to think like a communication professional. Synthesize and apply the readings by Woodbury, Addams and Neal, *The career portfolio: A practical jobs search tool* and the article by Okoro, Washington and Cardon on *E-portfolios in business courses as tools for employment* to

determine your career development plan. Use your abilities, knowledge, skills, and potential to identify concepts and principles from these articles as you write your short- and long-term career plans.

COMPLETE the 1-page short-term career plan table located in the module. What communication skills do you need to develop to show your expertise in your chosen career area? What are your short-term plans/goals for the next 2 years? Name specifics: what courses do you want to take? What kind of internship or volunteer work do you want to do? What (student) organizations or groups would you like to join? What companies would you like to work for? Would you move for an internship or job? Will you need to go to graduate school? When would you take the GRE, MCAT, LSAT, or GMAT? Have you attended career fairs or how have you built your network?

COMPLETE the 1-page long-term career plan table located in the module. What are your long-term plans/goals for the next 10 years? Where do you see yourself working or what do you see yourself doing 10 years down the road? What will it take to get there? Will you join professional organizations? Will you continue to network? What kind of salary do you want to be making? Does salary matter to you? Is something else more important than salary? Would you move for a job? What kind of long-term training do you need? Will you need to go to graduate school? List 2-3 core values and how they will impact your career goals and personal goals.

COMPLETE the 1-page back-up plan table located in the module. What would be your back-up plan if you did not get your dream job? What will it take to get there? Will you join professional organizations? Will you continue to network? Would you move for a back-up plan job? What kind of long-term training do you need for the back-up job? Will you need to go to graduate school? How do you plan flexibility? List 2-3 core values and how they will impact your career goals and personal goals if you have to switch to your back-up plan.

Networking Assignment

10% 100 pts.

Networking environments will be explored to show indicators of employability for the student using research from Thomas Clark's article, *Networking: A key to career communication and management consulting success* and Cooper and Tang's article *The attributes for career success in the mass communication industries: A comparison of current and aspiring professionals*. Students will apply networking principles and occupational psychology attributes to this assignment. This will allow students to navigate communication industries and reflect on assigned aspects of their own employment search, key premises they have learned about themselves, and employment opportunities for their personality dimensions. First, define networking and use the six principles from the Clark reading on networking. Then locate two professionals online who you would like to conduct an informational interview with, and how you plan to prepare and research for it. Complete the two required tables.

Mock Interview Follow-up E-mail

2.5% 25 pts

Students will either look up a job or create a fake position to write a mock interview follow-up e-mail. The e-mail format is organized in specific paragraphs per the rubric.

Elevator Speech and Script

10% 100 pts.

This assignment is designed to write a script and prepare and deliver a one-minute elevator speech to promote yourself as a communication employment prospect to show your value and what you can bring to an organization. This is an essential skill in the networking, interviewing or internship process. You will submit the script and the recorded speech.

WRITE a 75- to 150-word script that you could use if you ran into a potential employer, customer or mentor in an elevator, at a party, or on the street. Your script should include 4 important parts: 1. A question to get them interested; 2. A personal strength or distinguishing information regarding your skills, education, work experience, etc.; 3. What you can do for this person or their company or what they can do for you; and 4. How they can get in touch with you by offering a business card, your LinkedIn or portfolio information. Think about potential things like the following questions when writing your script. What job expertise do you have? What can you bring to future employers with a degree in communication? Describe skills and perspectives that communication-trained students possess that offer distinctive benefits in the workplace. What are your skills, natural strengths, and personality traits? What are you passionate about? Include your personal values and interests. How do the skills/strengths and values apply to your current professional path or various paths you are exploring?

RECORD a 30-second to one-minute video as if you were meeting this person. Dress professionally and be standing for your video. The video should start off with your question and go into the information you mentioned in your script and close with your contact information.

Professional Career Portfolio or Brand Website

20%

200 pts.

The portfolio assignment is a powerful tool that personalizes and compiles an individual student's work that shows evidence demonstrating competence and ability to secure employment. This project allows you to showcase the practical and analytical skills you have learned as a communication major regarding how you understand audiences, how to shape messages and interact with individuals and technologies. If you are a journalism major the portfolio gives you the opportunity to show multimedia skills necessary for packaging news stories by word, still photo, audio, and video. Students will understand that a portfolio assists in showing problem solving, adapting to change and taking initiative. The portfolio will include a high quality, tightly focused and message driven cover letter and resume to allow a student to show their accomplishments and concrete ways to show their work. Portfolios will be structured showing core skills, self-awareness and will also be personalized to show individual aspects of each student's achievement and growth. The portfolio will include an introductory statement and summary of undergraduate work and other areas of interest, demonstrated writing and research skills, speaking ability, and samples of creative work. Students may also include professional work they have done outside of school. Samples will be provided. Portfolio will be assembled appropriately for content. Written and visual components can be assembled into one pdf document or listed individually. Audio and/or video samples will be assembled into one audio and/or one video file or listed individually. Students will upload their portfolio link to a discussion for a peer review component which will be 10% of the total portfolio grade. Final portfolio links will be submitted to a Carmen dropbox.

OTHER COURSE POLICIES

Student participation requirements

Some assignments are based on your online activity and participation. The following is a summary of everyone's expected participation.

- **Participating in discussion forums:**
You can expect to post and respond several times throughout the semester. This requires that you check in twice per week. Additional participation will give you a richer experience within the course.

Discussion and communication guidelines

The following are my expectations for how we should communicate as a class. Above all, please remember to be respectful and thoughtful.

- **Writing style:** While there is no need to participate in class discussions as if you were writing a research paper, you should remember to write using good grammar, spelling, and punctuation. Informality (including an occasional emoticon) is fine for non-academic topics.
- **Tone and civility:** Let's maintain a supportive learning community where everyone feels safe and where people can disagree amicably. Remember that sarcasm doesn't always come across online.
- **Citing your sources:** When we have academic discussions, please cite your sources to back up what you say. (For the textbook or other course materials, list at least the title and page numbers. For online sources, include a link.)
- *Reusing past work:* In general, you are prohibited in university courses from turning in work from a past class to your current class, even if you modify it. If you want to build on past research or revisit a topic you've explored in previous courses, please discuss the situation with me.
- **Backing up your work:** Consider composing your academic posts in a word processor, where you can save your work, and then copying into the Carmen discussion.

Communication

I will post class updates and/or additional materials as announcements on Carmen and/or to your OSU email. You are responsible for this information.

Challenging a Grade

I am always willing to discuss your grades with you, but I will not do so during class time. To challenge a grade, you must meet virtually with me during office hours or make an appointment **within one week** of the assignment being returned to you. When we meet, you must present your concerns in writing and attach the graded speech, paper, or exam. Please note that a challenge may result in grades being raised or lowered.

Extra Credit

There will be no extra credit offered in this course.

Academic integrity policy

See **Descriptions of major course assignments**, above, for my specific guidelines about collaboration and academic integrity in the context of this online class.

It is the responsibility of the Committee on Academic Misconduct to investigate or establish procedures for the investigation of all reported cases of student academic misconduct. Instructors shall report all instances of alleged academic misconduct to the committee (Faculty Rule 3335-5-487). For additional information, see the Code of Student Conduct <http://studentlife.osu.edu/csc/>.

If I suspect that a student has committed academic misconduct in this course, I am obligated by university rules to report my suspicions to the Committee on Academic Misconduct. If COAM determines that you have violated the university’s *Code of Student Conduct* (i.e., committed academic misconduct), the sanctions for the misconduct could include a failing grade in this course and suspension or dismissal from the university.

If you have any questions about the above policy or what constitutes academic misconduct in this course, please contact me.
